Dept. of Justice:

Dear Sirs:

I would like to voice my opinion on the current ongoing case against Microsoft. It seems that the case goes on and on, driven by companies and their lobbyists that are more interested in deriving an income from the suit rather than buckling down, working hard and becoming a true competitor. Also some States see a ruling against Microsoft as a cash cow and help keep the case ongoing to try and reap benefits for themselves with no concern for the effect it has on both the U.S. economy and the State of Washington. The people who keep this case going never seem to bring up all the good that Microsoft, Gates and many employees do for education and charitable needs in this country plus the tax revenues derived for the U.S. and Washington. WOULD YOU PLEASE BRING THIS TO AN END!!!! THANKYOU.

Al Short
